

NEW CONSTRUCTION

Planning for a new single-phase electric service?

A new three-phase service?

Another application?

It's time to contact our office.

Call (800) 734-6421 or (507) 373-6421

or stop by our office during regular business hours.

Before the work order is put on our construction schedule:

- Contact our staking technician with information regarding the proposed location of your metering along with the requested date for the new service.
- Wiring behind the metering point must be completed by the electrical contractor of your choice.

Completion time varies depending on:

- Current workload
- Complexity of the service installation
- Weather-related conditions

All offers are subject to change.

While we do our best to accommodate your construction schedule, adequate lead time is necessary for us to obtain the needed equipment. This is especially important in regard to three-phase service requests. The sooner you can let us know your project requirements, the better able we will be able to meet your service request.

People. Power. Possibilities.

Contact your local electric cooperative for details:

Freeborn Mower Electric Cooperative
3366 Bridge Avenue, Albert Lea, MN 56007
info@fmec.coop | www.fmec.coop
(800) 734-36421 | (507) 373-6421

BUILDING A NEW HOME?

*The planning starts
now for electric options!*

HOME SECURITY & AUTOMATION

- Leave installation to the professionals. **Heartland Security** makes owning and operating a home, farm or commercial security and video surveillance system easy.
- Add automation for energy efficiency.
- **FREE**, no pressure security analysis.

Contact Heartland Security and ask about FMEC member pricing.

www.heartlandss.com

AIR-SOURCE HEAT PUMPS

- Get more from your air cooling system with an air-source heat pump.

Ask about rebates available for heat pumps or visit the “Rebates” tab on our website www.fmec.coop.

PRODUCES UP TO 3X THE ENERGY IT CONSUMES!

ELECTRIC\$ENSE® REBATES AND INCENTIVES

MAKE THE MOST OF YOUR ENERGY DOLLARS!

The Electric\$ense® Incentive Program will run from **January 1 through December 31**. It may close prior to December 31 if program funds are depleted. The Electric\$ense® Incentive Program is **subject to change without notice**.

- > Ac Tune Up
- > Agricultural, Commercial, and Industrial
- > ENERGY STAR Appliances
- > Appliance Recycling
- > Energy Audits/Recommended Improvements
- > Compressed Air Audit
