

# BECOME A SAFETY SUPERSTAR

**FREEBORN MOWER ELECTRIC COOPERATIVE PRESENTS:**

## **THE SAFETY SUPERSTARS PROGRAM**

A FREE, HANDS-ON ELECTRIC SAFETY LEARNING EXPERIENCE FOR YOUR 4TH GRADE CLASSROOM

*Electricity powers nearly everything we do but understanding how to use it safely starts early. Freeborn Mower Electric Cooperative's Safety Super Stars Program brings energy education to life with an interactive, one-hour classroom experience designed for 4th grade classrooms.*

### **WHAT STUDENTS WILL LEARN**

- Where electricity comes from and how it gets to their homes and schools.
- What makes a cooperative unique: we're owned by the people we serve.
- How to use energy wisely with simple, kid-friendly efficiency tips.
- How to stay safe around power lines, transformers, and other electrical equipment.

### **PROGRAM HIGHLIGHTS**

- **LIVE ELECTRIC SAFETY DEMONSTRATION:** See the power of electricity in action and discover how to stay safe in everyday situations.
- **LINEMAN GEAR DEMO:** A student volunteer gets to "gear up" in real safety equipment.
- **INTERACTIVE ACTIVITIES AND Q&A:** Kids ask questions, share ideas, and explore real-world safety scenarios.
- **TAKE-HOME COLORING SHEET:** Reinforces safety lessons at home with families.

### **DETAILS FOR SCHOOLS**

- Audience: 4th grade classrooms (adaptable for 3rd-5th, ideal for groups of 20-30 students per presentation)
- Length: 1 hour
- Cost: Free
- Presented by: Two trained FMEC staff members
- Setting: Your classroom or a shared space such as a gym or cafeteria

### **WHY FMEC OFFERS THIS PROGRAM**

As your local electric cooperative, FMEC is committed to education, safety, and community service. By teaching students about the power and responsibility of electricity, we're helping build a safer future for everyone.
