

BUILDING A NEW HOME?

*The planning starts
now for electric options!*

ELECTRIC WATER HEATERS

- Co-op members can receive a FREE water heater with the construction of a new home.
- Freeborn Mower Electric Cooperative (FMEC) offers a FREE lifetime tank warranty and FREE service calls during normal business hours with the purchase of a water heater from the cooperative.
- No gas lines or venting required.
- Units are highly efficient and can be paired with electricity generated from renewable resources.
- When combined with the co-ops load control device, it runs like a "smart appliance," providing stability and efficiency to the power grid by heating water when demand for electricity is low and storing it for later use.

Ask how to get a FREE 85 or 105 gallon Marathon electric water heater with a lifetime warranty!

HOME SECURITY & AUTOMATION

- Leave installation to the professionals. Heartland Security makes owning and operating a home, farm or commercial security and video surveillance system easy.
- Add automation for energy efficiency.
- FREE, no pressure security analysis.

Contact Heartland Security and ask about FMEC member pricing. www.heartlandss.com

GET AN AIR-SOURCE HEAT PUMP

- Get more from your air cooling system with an air-source heat pump.
- Gain heating and cooling through every season with the purchase of a cold climate heat pump.
- Super-efficient, it delivers up to three times more energy than the electricity it uses.
- Achieve sustained savings through energy efficiency.

Ask about rebates available for heat pumps!

GREEN OPTIONS FOR YOUR HOME & RIDE

- If you're dreaming of greener options for powering your home and/or vehicle without the hassle of additional equipment, ask about our Evergreen programs.
- Consider having your garage pre-wired for an electric vehicle charger.
- A voluntary time-of-use or interruptible charging rate for electric vehicles is available.
- Achieve sustained savings through energy efficiency.

Rebates are available for electric vehicle chargers!

APPLIANCES, LIGHTING, ETC.

- Rebates are available for several different electric appliances, LED bulbs, and occupancy sensors.
- All rebate forms can be found at www.fmec.coop

Visit our website for rebate details!

All offers are subject to change. Contact your local electric cooperative for details.

3366 Bridge Avenue, Albert Lea, MN 56007

NEW CONSTRUCTION

If you're planning for a new single-phase electric service, or a new three-phase service, or another application, it's time to contact our office. Call (800) 734-6421 or (507) 373-6421 or stop by our office during regular business hours.

You will need to contact our staking technician with information regarding the proposed location of your metering and the requested date for the new service. Wiring behind the metering point must be completed by the consumer or the electrical contractor of their choice before construction begins. When everything is in place, the work order is put on our construction schedule. The actual completion time varies depending on such factors as the current workload, the complexity of the service installation, and weather-related conditions.

2023 ELECTRIC\$ENSE® REBATES AND INCENTIVES

Make the most of your energy dollars!

Freeborn Mower Electric Cooperative promotes energy efficiency in the purchase and installation of electric appliances and equipment. Forms are downloadable from www.fmec.coop or by contacting our Energy Solutions Department at (800) 734-6421.

The 2023 Electric\$ense® Incentive Program will run from January 1 through December 31, 2023. It may close prior to December 31 if program funds are depleted. The Electric\$ense® Incentive Program is subject to change without notice.

- **AC Tune Up**
- **Agricultural, Commercial, and Industrial** (commercial vending machine controls, commercial air source heat pump & PTHPs, circulation fan, exhaust fan, electric forklift battery charger, dairy plate cooler / well water pre-cooler, dairy refrigeration heat recovery with electric backup, low/zero energy livestock waterer, scroll refrigerant compressor, variable frequency drive)
- **ENERGY STAR Appliances** (clothes dryer, clothes washer, dehumidifier, dishwasher, freezer, inductive range, refrigerator)
- **Appliance Recycling** (must be a working freezer, refrigerator, or room air conditioner)
- **Energy Audits / Recommended Improvements**
- **Compressed Air Audit**
- **Electric Vehicle Charging Station**
- **Electric Vehicle Level II Charger with Metering**
- **Heating, Air Conditioning, Ventilation HVAC** (heat pump – air source, heat pump – geothermal, new furnace with ECM blower motor)
- **LED Lighting or Occupancy Sensor**
- **Touchstone Energy New Home**
- **Electric Water Heater**
- **Heat Pump Water Heater**
- **Solar Storage Water Heater with Electric Auxiliary Tank**
- **Lighting Recycling**

Members must submit an incentive application within three (3) months of purchase date for Appliance, Conservation, and Lighting measures. Incentive applications must be submitted within 3 months of install date for Water Heaters, HVAC, Commercial, Industrial, and Agricultural measures.

While we do our best to accommodate your construction schedule, adequate lead time is necessary for us to obtain the needed equipment. This is especially important in regard to three-phase service requests. The sooner you can let us know your project requirements, the better able we will be able to meet your service request.

People. Power. Possibilities.

Please contact our office for further incentive details, or visit the Rebates tab on our website.
